

Department of Engineering Design
INDIAN INSTITUTE OF TECHNOLOGY MADRAS
Chennai, India-600036

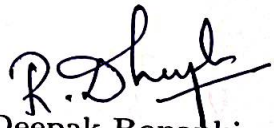

Internship Certificate

This is to certify that **Mr. Rittu Ronald**, a student of Mechatronics and Automation Engineering at Vellore Institute of Technology, Chennai, India, has successfully undertaken a **summer internship** from **May 19, 2025, to July 19, 2025**.

During the internship, he gained practical experience and technical knowledge in the domain of **wireless power transfer**. His contributions included

- Conducting study and analysis of 3D modeling of couplers used in wireless power transfer systems.
- Providing an overview of shielding techniques to reduce magnetic leakage in wireless power transfer.

Rittu exhibited strong technical curiosity and an eagerness to learn throughout the internship period. He successfully simulated these at the Department of Engineering Design, IIT Madras. His performance during the internship was very good.
